

Paperlandmarks Models At A Glance

UNIQUENESS

Paperlandmarks models are finely detailed and express the very nature of the landmarks they represent. All the beauty of details is achieved by cutouts and folded panes, not just printed facades. Wherever you use them, we guarantee the superior quality of our kits

WIDEST AUDIENCE

The models are ideal for

- school projects
- home interior design
- one's party
- a very special gift
- studies of form and structure

Ages 10 to adult

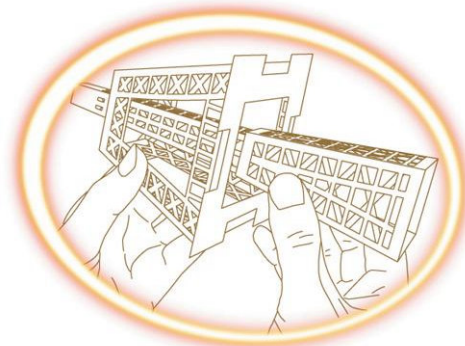

MADE FROM

Models are produced from the finest cardboards, which are crisp but durable enough to let the particular landmark look firm and elegant

EASY ASSEMBLING

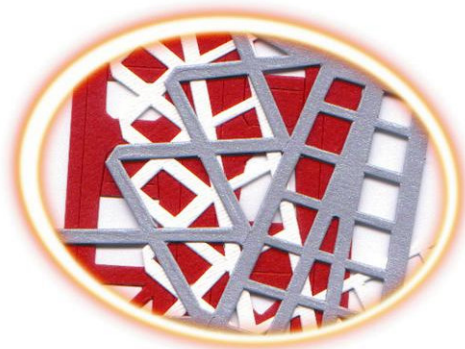

Models are very easy to build following detailed step-by-step instructions in English along with self-descriptive 3D diagrams

PACKAGING

Cellophaned folder (13x9,5 in; 33x24 cm)
with a convenient Euro-slot hanger

We produce models of two types:

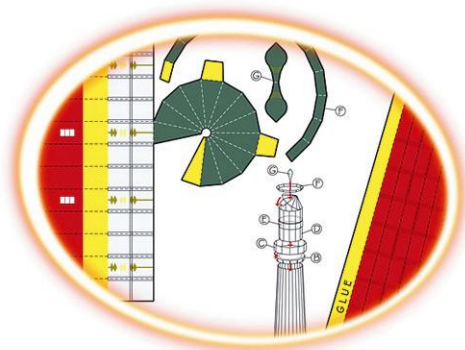

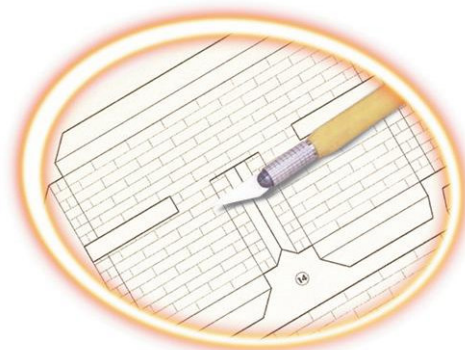

PRE-CUT

No additional cutting is needed - every detail is already cut very precisely! The width of openwork frame for some models is as narrow as 0,6 inches (1,5 mm), so be ready to fold the parts very accurately! Glue should be used only at some crucial spots

PRINTED

The scoring and cutting pattern is printed on the front side so one can easily cut out the details and assemble the model according to set-up instructions

We also produce models with printed details in full color as well as the custom kits by request. Just ask!

GREAT HOBBY

WHOLESALE

We offer wholesale pricing for our models with a minimum order of 10-20 kits. Please request more information trade@paperlandmarks.com
